TECH SGT. ALVIN C. NOLTE

Tech Sgt. Alvin C. Nolte, United States Army Air Corps, is in the Solomon Islands in the South Pacific, scene of violent fighting during recent months, resulting in victory for the Americans. He has been in the battle area of the Pacific for more than a year.

Sgt. Nolte was first trained at Camp Crowder, Mo., and at Barksdale, La. It was only a short time later that he embarked for the South Pacific. Shortly before he went overseas he came home for a short visit.

Sgt. Nolte at the time he volunteered was an Assistant Cashier of the Citizens National Bank of Cameron. He had been with the bank for more than 12 years and his name still appears as a member of the personnel with the notation "now in service." Two Arrested Here For Thefts From Hotel Guests

Two young men, one a soldier, the other a civilian, were arrested Saturday night by Carl C. Black, Deputy Sheriff, after they had entered the rooms of guests at a local hotel and taken money and a wrist watch.

Mr. Black said the boys ran out of a room and down to the lobby when a soldier sleeping in the hotel was disturbed when some one attempted to remove a watch from his wrist.

The soldier ran out of the hotel and down a sidewalk. He threw away the money and a purse in which he had placed his picture. The money and purse were recovered. One guest said he lost $6 and another $2. One guest lost $45 but could not remember whether he had the money when he went to the hotel.

$593,256 REPORTED BY TREASURY LEADER HERE

Bond sales rocketed to a new high Wednesday.

Oxsheer Smith, District Representative of the United States Treasury Department, directing the 4th War Loan, reported that Cameron banks had sold $593,256 in bonds in all denominations of bonds up to Wednesday.

This impressive total was a heartening development. Nathan Adams, Texas director of the 4th War Loan, in a broadcast Wednesday said Texas was only 28 per cent up with the quota.

In the second and third war loans Milam county due to the financial leadership of Mr. Smith and others of his organization, was able to report greatest of excess of quota of any section in America.

In the Third Loan which was concluded last September Milam county was credited with in excess of Ten Million Dollars in War Bonds.

The 4th War Loan quota was fixed low. With Texas falling short of expected sales to this date the report by Mr. Smith Wednesday was encouraging for this area.

Man Posing As Oil Operator; Oklahoma Asylum Escapee

A. C. Outlaw, a former resident of this county, posing as an oil operator, was found to be an escapee from an Oklahoma City Asylum.

Deputy Sheriff Carl C. Black was called to a local hotel early Saturday morning where Outlaw was creating a disturbance. Mr. Black had seen Outlaw in a local cafe the day before where with a brief case he was creating the impression he was a busy oil man.

As Deputy Sheriff Black walked into the lobby he recognized Outlaw who came along without trouble. Mr. Black walked with him about the streets and later placed him in the car and drove about the city. All the while Outlaw was growing more violent and it became necessary to take him to a local jail cell.

Andrew T. Cole, Deputy Sheriff from Oklahoma City, came to Cameron for Outlaw. He will be returned to the asylum. Outlaw was reared near Lilac and San Gabriel.

$56,331.25 TOTAL IN 4TH WAR LOAN SALES

Milam county had reported the sale of only $56,331.25 in bonds up to Thursday.

The figures were released from the office of Emory B. Camp, assistant treasury representative, late Wednesday.

The average is only $7,000 per day. The showing here is regarded as poor, although Cameron had reported $22,000 of the total.

The goal for the county is $370,000 which will purchase a fortress bomber just named the "Spirit of Milam County." Chas. M. Hicks, county chairman for the Fourth War Loan has just received newspaper mats of the new ship and they will be released for publication in the newspapers next week.

Its service ceiling is well above 35 thousand feet.

YANKS POISED FOR THRUST AT ROME

American troops have smashed back across the Rapido river near Cassino in a fierce offensive designed to keep the pressure on Nazi forces in that part of Italy and prevent them from racing up to defend Rome against the new Allied invasion from the sea, it was announced last night as bedlam broke loose on the Russian-Polish diplomatic front.

The Russians announced they had conclusive proof that 11,000 Polish war prisoners were slain by the Germans near Smolensk in August and September, 1941, and loosed a blast against the Polish government-in-exile at London because it had credited a Berlin claim that the prisoners were killed by the Russians in 1940.

Russia also left the impression that she firmly intends to hold approximately two-fifths of prewar Poland.

Premier Stalin announced that Soviet troops, rolling on in their great "liberation" offensive below Leningrad, had stormed and captured in bitter street fighting the fortified railway town of Krasnogvardeisk, 50 miles southwest of the old Czarist capital. This cut the last escape route to the west for some 250,000 German troops.

A Soviet communique said 40,000 Germans had been killed on the Leningrad front in 11 days.

Allied headquarters at Algiers, anent the five day old landing near Rome, said progress was satisfactory and that reinforcements still were pouring ashore. There still was no official announcement that British and American troops had crossed the Appian way, 15 miles from that coast, though this was considered highly probable.

A Cairo broadcast yesterday said Allied troops were 19 miles from Rome, but that, even if true, did little to lift the veil of tactical secrecy. Edward Kennedy, Associated Press correspondent, implied the drive was not on Rome itself, but was aimed at establishing a strong line below the Italian capital and trapping the 100,000 Germans estimated to be fighting on the main Fifth army front from Cassino to the sea.

The fighting around Cassino was bitter. American infantry, bouncing back after being repulsed on Sunday, again hold a firm bridehead across the Rapido river. There was no indication Cassino had been occupied, though the Nazis apparently had abandoned the stronghold.

LENINGRAD FREEDOM CELEBRATED BY REDS

A record battery of 324 cannon boomed in Leningrad last night, celebrating the complete liberation of Russian's second city after two and a half years of siege and constant shelling by the Germans, while in Italy the Nazis finally began tossing their expected counter attacks against the six day old Allied bridehead south of Rome.

In a triumphant order of the day signed by five Red army generals who directed the great northern offensive, the Soviets announced that a total of 700 communities in the Leningrad area had been freed in two weeks of fighting and the Germans driven back 40 to 60 miles along the whole front. Wednesday they announced 40,000 Nazis already had been killed.

The midnight Moscow communique reported the capture of Tosno, 30 miles southeast of Leningrad on the main Leningrad-Moscow railway and highway, and seizure of Volosovo, a rail junction 45 miles southwest of Leningrad and only 39 miles from the Estonian border. The Germans still held only about 28 miles of the Leningrad-Moscow railway.

An unseasonal thaw had turned the Leningrad area into mud and flooded streams, hampering both sides.

Except that the Nazis were beginning to counter attack in some stength and that one such thrust by units of the Hermann Goering armored division below Littoria and been repulsed, there was little actual news of the fighting south of Rome.

Littoria is in the Pontine marshes 12 miles due east of the original Allied landing at Nettuno. The Rome radio last night said Nazi troops had recaptued Borgopiave, two miles northwest of Littoria and that was the first indication that Allied troops had pushed that far beyond the Mussolini canal. It still was only assumed that American and British forces cut the Appian way, one of two chief supply routes for some 100,000 Germans on the main Fifth army front near Cassino.

One thing known for certain was that the Nazis were rushing every thing they could lay hands on to oppose the new threat to Rome. The roads were lined with their vehicles, and continued sorry weather handicapped the Allied air force in its efforts to obstruct this traffic. Enemy counter attacks had died out almost completely in the Cassino area, and American troops were reported in the outskirts of that stronghold guarding the Liri valley.

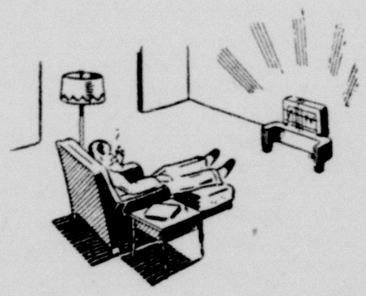
IMPORTANT as heat

in maintaining healthful

winter living conditions....

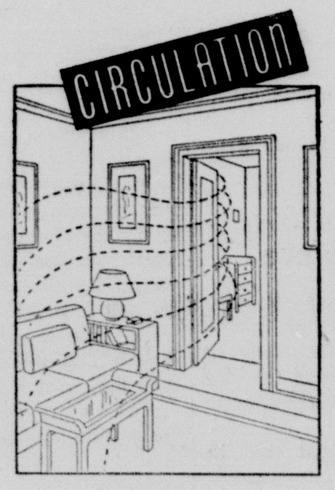
VENTILATION

MOTION OF AIR



When the temperature drops to 65 degrees, heat is needed for comfort. And when heat is needed, it is important that it should be held constant and at a uniform temperature throughout the house to avoid chilling drafts or hot spots. Where UNvented, open flame heaters are used Ventilation and Motion of Air are also needed to maintain healthful conditions and reduce "wall sweating."

Without ventilation, inside air becomes stale and oxygen content is lessened because of breathing of occupants and combustion of UNvented, open flame heater. Slightly open window to provide necessary ventilation.



Air in motion favors evaporation where there is a condition of too much moisture. Moving air helps keep atmosphere fresh and heat evenly distributed. Keep doors open between heated rooms for this circulation.

When the war is over and the peace is won

—you'll want to carry out your plans for stepping up your house heating to luxurious circulating heat as supplied by VENTED floor furnaces and circulators. Until then, continue to buy more war bonds.

LONE STAR GAS COMPANY

"Our Town"

by J. B. WHITE

Here is the story of how prisoners of war have been treated by Japan. Not half the story has been told, says a statement today. It is doubtful if any will come back alive. There are at least four and perhaps more Cameron boys prisoners of the Japs. Read this and then think about the "peace now' movement, or the almost daily strikes in industry. Go fur ther. Venture to question the shop worn methods of diplomacy which we have followed. Are you complacent? Maybe Washington is complacent. There is no substitute for attack. Let's get on with the war and if we slay a few politicians, so much the better:

The army and navy issued jointly "the factual and official story of how the Japanese tortured, starved to death and sometimes wantonly murdered American and Filipino soldiers who had been taken prisoner of Bataan and Corregidor."

From reports made by a naval officer and two army officers who escaped from the Philippines after almost a year as prisoners, the two departments assembled the story, including the report that several times as many American prisoners in the hands of the Japanese have died—mostly of starvation, forced hard labor and general brutality—as the Japanese have ever reported.

"At one prison camp, Camp O'Donnell, about 2,200 American prisoners died in April and May 1942," said the report. "In the camp at Cabanatuan, about 3,000 Americans had died up to the end of October, 1942. Still heavier mortality occured among the Filipino prisoners of war at Camp O'Donnell."

The report was assembled from statements made by Commander Melvyn H. McCoy, U.S.N., Indianapolis; Lt. Col. S. M. Mellnik, coast artillery of Dunmore, Pa., and Lt. Col. William E. Dyess, air corps, of Albany, Texas.

Dyess was killed in a crash of his fighter plane at Burbank, Calif., recently while he was preparing to return to combat against the Japanese. Mellnik is now with Gen. Douglas MacArthur's command in the southwest Pacific, and McCoy is on duty in the United States.

Dyess told the army that "though beaten, hungry and tired from the terrible last days of combat on Bataan, though further resistance was hopeless, our American soldiers and their Filipino comrades in arms would not have surrendered had they known the fate in store for them.

The "March of Death," Dyess said, began when thousands of prisoners were herded together at Mariveles airfield on Bataan at day light on April 10, 1942, after their surrender.

Some of them had food, he said, but the guards would not permit any of them to eat; they were searched, their personal belongings taken, those with Japanese token or money were beheaded, and then—in groups of 500 to 1,000 men—the prisoners were marched along the national road off Bataan toward San Fernando in Pampanga province.

Those who still had personal belongings were stripped of them, and the Japanese slapped and beat them with sticks as they marched without food or water on a hot day, the report said.

Dyess, describing "the march of death," said that a Japanese soldier took his canteen, gave the water to a horse, and then threw the canteen away; men recently killed were lying along the roadside, many run over and flattened by Japanese trucks patients bombed out of a hospital, dazed, wandering in pajamas and slippers, were herded into the marching column; the prisoners marched the second day without food, but at noon were permitted to drink dirty water from a stream beside the road; no one was allowed to help prisoners who collapsed and fell; on the third day, the prisoners got their first taste of "sun treatment," forced to sit in the broiling sun all day without cover.

"We had very little water; our thirst was intense," Dyess reported. "Many of us went crazy and several died. The Japanese dragged out the sick and delirious. Three Filipino and three American soldiers were buried while still alive."

The story continued:

Filipino civilians who tried to help were beaten; a colonel and a Filipino soldier who picked up three soldiers who had collapsed and put them on a cart were seized by the Japanese and they and the three soldiers, in a coma, where horsewhipped; six Filipino soldiers, half-crazed with thirst, made a dash for a roadside well, and all six were killed.

"I made that march of about 85 miles in six days on one mess kit of rice," said Dyess. "Other Americans made 'the march of death" in 12 days, without any food whatever. Much of the time, of course, they were given the sun treatment along the way."

The report said that prisoners taken at Corregidor a month later, among them McCoy and Mellnik, had no experience quite like the death march.

However, 7,000 Americans and 5,000 Filipinos were concentrated on a square of concrete about 100 yards on each side, kept there without food for a week. There was only one water spigot for the 12,000 men. After seven days they got their first rations one mess kit of rice and a can of sardines.

One dilapidated building was set aside and called a hospital, but there was no medicine of any kind—"the doctors had not even water to wash human waste from their patients." Once the Japanese allowed the Red Cross at Manila to bring in quinine—"how much, the prisoners never found out."

There were thousands of cases of malaria.

Men literally were worked to death; it was not unusual for 20 per cent of a work detail to die, and "in one instance, 75 per cent were killed that way."

McCoy reported that when two army officers and a navy officer were caught trying to escape from Cabanatuan, "their Japanese captors beat them about the feet and legs till they could no longer stand, then kicked the officers and jumped on them."

"The next morning the three Americans, stripped to their shorts, were taken out on the road in full view of the camp, their hands were tied behind them, and they were pulled up by ropes from an overhead purchase, so that they had to remain standing, but bent forward to ease the pressure on their arms, the report said.

"They were kept in this position in the blazing sun for two full days. Periodically the Japanese beat them with a two-by-four, and any Filipino unlucky enough to pass that way was compelled to beat them too. If he failed to beat them hard enough, the Japanese beat him. After two days of this, one of the officers was beheaded and the other two were shot.

What do I like about Coffee?

ECONOMY

LAMOFILM PACKAGE PRESERVES THE FRESHNESS

One of the very real economies of Admiration Coffee is its unique freshness. When freshness evaporates so too do aroma, flavor, and strength. Admiration Coffee retains all these qualities oven-fresh because its Lamofilm Package is leak-proof. Once sealed (we should say once *triple* sealed) nothing can escape. Nor can moisture seep in. This freshness thus saves you many a pound during the year—and as much money.

ADMIRATION PREVENTS COFFEE-MAKING FAILURES

If your coffee maker and water are clean, it's practically impossible to make a "bad" cup of Admiration Coffee. This wonderful old blend, favorite for years in the Southwest, is rich, flavorful, and aromatic. No matter how you prefer your coffee, weak, moderate, or strong, its *distinctive flavor* is always discernible. You'll know it's Admiration, for Admiration alone *tastes* like that. By all means try a pound today if you're one of those rare individuals who've never had the pleasure.

$18,100 BOND SALES REPORTED TUESDAY

Bond sales amounting to $18,100 were reported Tuesday by Chas. M. Hicks, chairman for the county in the 4th War Loan drive.

A portion of this total may have been reported in the Cameron sales of yesterday given by Oxsheer Smith, Treasury Representative.

San Gabriel was over its quota when one team reported $4,100 in sales with the quota for the community only $4,500.

The Southern Pacific Railroad had bought $6,000 in commercial bonds and the Texas Power & Light Company had bought $6,000 in the same denomination bonds. Wm. Cameron & Company with a lumber yard in Rockdale bought $1,000 and the Bryan Production Credit Corporation had bought $1,000.

Reports were slow reaching the Daily Herald and no day by day showing has been available to stimulate workers or progress.

Fast and Furious Fun Seen in M-M-M's Film Comedy, "I Dood It"

The fun reigns fast and furious at the Cameron Theatre Feb. 3 and 4 showing M-G-M's slick comedy riot, "I Dood It," starring Red Skelton and Eleanor Powell. The tuneful musical brings the successful team of Skelton and Powell together again for the third laugh-happy time with Red in his most hilarious characterization to date. There are a host of popular stars to round out the stellar supporting cast.

Red plays a zany pant's presser who falls in love with a Broadway star. By wearing his customers' clothes he manages to impress her and the next thing he knows they are married and involved in a hunt for a gang of saboteurs. And his troubles are only beginning!

Amid the absurd situations that arise there is a wealth of musical entertainment supplied by Jimmy Dorsey and his orchestra and a breath taking musical number played by Hazel Scott, Broadway's swing sensation, and sung by Lena Horne. Miss Powell does a "western" dance number during which she twirls a lariat in time to the music while performing the most intricate steps.

Guerrilla Bands Harass Invader Glamorous Star

The important and dramatic role played in China's war against the aggressor by her hardy guerrilla bands is vividly portrayed in the new all-color motion picture, "Kukan," the Battle Cry of China, at the Cameron Theatre on Saturday, February 5th thru United Artists release.

Lacking adequate heavy artillery and planes necessary for large-scale offensives, China uses swift-moving bands of guerrillas to constantly attack and harrass the enemy. They waylay and ambush advancing columns and patrols, attack enemy garrisons in the villages, cut communications, tear up railroad tracks and roads

Some of the largest guerrilla bases are behind the enemy lines. An important part of the guerrilla tactics is to organize civilians against the enemy. In this way the guerrillas obtain bases of operation, win new recruits and are able to get up to the minute news of Japanese movements. The fighters are often harmless farmers by day. At night they drag forth their rifles and join raiding parties.

Guerrilla tactics have been highly successful, and in them lies one of the secrets of China's resistance. The invader forgot to reckon on the fierce heroism of men defending their homes.

"Spirit" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, February 6.

The Golden Text is: "We through the Spirit wait for the hope of righteousness by faith." (Galatians 5:5.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The Lord is high above all nations, and his glory above the heavens." (Psalms 113:-4.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In Christian Science, Spirit, as a proper noun, is the name of the Supreme Being. It means quantity and quality, and applies exclusively to God." (Page 93.)

Is "Two-Fisted" Starrett Stars In Ranger Film

The thrilling story of men who fight to the death to protect their land has been stirringly filmed by Columbia in their new Western, "Hail to the Rangers," which opens at the Milam Theatre Friday and Saturday, February 4 and 5. Once again husky Charles Starrett battles forces of evil, this time as the leader of a group of ranchers, who resist an unscrupulous mob's attempts to gain possession of all the grazing land in the district.

According to advance notices, a series of running gun fights, rousing rides and power-packed rough and tumbles mark the struggle. But moments of relaxation are provided too. For "Hail to the Rangers" is song studded, and its rollicking airs are warbled by none other than Leota "Blue Eyes" Atcher, and her singing partner, Bob. Both are well-known radio personalities and bid well to become screen stars of equal magnitude. As the first singing cowgirl to appear in films, Leota croons a trio of outdoor ballads, while deftly playing the picture's heart interest.

"Hail to the Rangers" also has Arthur (Arkansas) Hunnicutt and his comical didoes, and an assortment of double-daeling villains.

Czech Lodge Allots $15,000 in Bonds to Milam in Loan Drive

The S. P. J. S. T. Lodge in Texas with headquarters at LaGrange has allocated $15,000 of its current purchase of 4th War Loan Bonds to Milam county, it was announced here Monday by Chas. M. Hicks, Chairman.

This amount is $5,000 in excess of the total allocated in the Third War Loan in September. The allocation is made possible by the fact that so many members of the organization live in Milam county. These members have requested such allocation from time to time.

The Texas Power & Light Company has purchased an additional $3,000 allocating $2,000 to Rockdale and $1,000 to Thorndale. This makes a total of $9,000 allocated by the company to Milam county.

BEN ARNOLD EXCEEDS 4TH WAR LOAN QUOTA

Ben Arnold has reported 4th War Loan bond sale in excess of the quota.

The report was made Friday by Will Vogelsang, who said that the community had oversubscribed by a nice margin. Ben Arnold was the first community to announce goal in the Red Cross drive and has always met its goal in war bonds.

Mr. Vogelsang always has a large share in the work of these war drives. He has a son in the United States Army Air Corps and stationed in Utah.

The quota fixed by the county Defense Council for Ben Arnold was $8,250. It was expected the purchase of war bonds there would reach around $10,000.

"Thousands Cheer" Is To Promote Sale Of War Bonds Here

Metro-Goldwyn-Mayer, the company which gave film audiences the first great all-star picture, "Grand Hotel," and presented star-studded casts again in "Dinner at Eight" and "The Great Ziegfeld," does it once more in the lavish Technicolor musical, "Thousands Cheer." The film, which is to open at the Cameron Tuesday, Feb. 8, contains virtually every star on the M-G-M lot, the studio of big stars.

Kathryn Grayson, Gene Kelly, Mary Astor and John Boles head the cast in the delightful tale of the Army officer's daughter who undertakes a morale job at her father's camp and falls in love with an ex-circus performer and proceeds to make him the best soldier in camp. In the course of the film a gigantic USO show is presented to the boys in camp. Among those who appear in the many acts are Mickey Rooney, Judy Garland, Red Skelton, Eleanor Powell, Ann Sothern, Lucile Ball, Virginia O'Brien, Frank Morgan, Lena Horne, little Margaret O'Brien, Marilyn Maxwell and Marsha Hunt and many others. Kay Kyser and his orchestra, Bob Crosby and his orchestra, Benny Carter and his band are among those who also perform.

Jose Iturbi, in his first appearance on the screen, displays, an outstanding talent as an actor and in addition to his fine musical selections accompanies Judy Garland in a genuine jive number that should tear the house down. Kathryn Grayson makes a charming and appealing young concert singer and sings several numbers. As the buck private who falls in love with the Colonel's daughter, Gene Kelly in honest and sincere. He proves himself to be one of the greatest dancers on the screen with his mop and broom routine. John Boles and Mary Astor are convincing as the bewildered parents.

Mrs. Geo. A. Thomas Observes 85th Birthday In Cameron Thursday

Mrs. George A. Thomas was 85 years old on Thursday, January 27th and observed her birthday quietly at her home in Cameron. The family residence is a model of early 19th century architecture and Mrs. Thomas lives quietly there with her daughter, Miss Clara Thomas and son Monta Thomas.

Mrs. Thomas was born in Robertson county. A native Texan, she has retained through the years the quality of the pioneer and so many friends rejoiced that she was happy on her 85th birthday.

A birthday dinner of turkey and accessories was served. The birthday cake was beautiful with burning tapers and sweetpeas lent floral charm to the dining room. A four course dinner was served. The old Southern home was resplendent with decorations. Here in times past many hospitalities have enriched the social life of the community.

Mrs. Thomas received many gifts and messages of congratulation. Many sent spring flowers.

In the afternoon Mrs. Thomas enjoyed an auto ride over the city where her late husband, George A. Thomas, a native of England, came a pioneer druggist. The name of George A. Thomas & Sons is a tradition along Cameron's commercial row.

With Mrs. Thomas on her birthday were her children Mrs. Albert Triggs of Houston, Miss Clara Thomas, Walter Thomas of Wichita Falls, Rush A. Thomas and Monta Thomas of Cameron.

To those who voted for my opponents I have only the kindest feelings and I trust I shall have their co-operation in every way to serve you well as Marshal.

The majority system adopted by the Democratic Committee calls for a run off election. I take this method of asking for your support in that election because I want to serve you as City Marshal.

The confidence you express in me reminds me of the debt I owe to the people and I want each one to know how grateful I am..

There will be American justice for the savages of Tokio but our trial and punishment of Tojo and his criminals will cost blood, sweat, toil and tears and money. You can supply the money by upping your war bond buying through the payroll savings plan. Figure it out yourself and see where the money is coming from. How much does it cost you and your family to live each month? How much money is coming in from all members of your family? Put the extra money into war bonds, every penny of it. Have a Coca-Cola = Skal
(HERE'S TO YOU)

. . . or a way to be warm-hearted in Iceland

Skal, says the Icelander when he wants to wish you well. *Have a "Coke"*, says the Yank in the same spirit. In every clime *Have a "Coke"* is a phrase that breaks the ice between strangers. That's why Coca-Cola always belongs in your icebox at home. Yes, from the equator to the poles, Coca-Cola stands for *the pause that refreshes,*—has become the global symbol of those who wish well to their fellow men.

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".
